R

Feed Louisville's culinary work lies at the intersection of hunger and sustainability.

We prepare hundreds of **nutritious and hearty meals** daily in our licensed kitchen that our outreach team takes directly into the camps and streets. Our professional chefs have cooked in some of the most respected restaurants in Louisville and now use their skills to **fight hunger** in the community.

Through our **Food Rescue Program**, we divert thousands of pounds of perfectly viable food from the landfill each month and turn it into beautiful meals for our houseless community. Our **Food Rescue Partners** are grateful to have a place to make good use of their excess ready-to-eat food, raw ingredients, fresh produce, bread and baked goods.

FOOD WASTE FACTS

**ONE
THIRD**

One-third of all food produced in the world is **lost or wasted** between farm and fork.

**40M
TONS**

Americans discard more food than any other country, nearly **40 million tons**, or 30-40% of the U.S. food supply.

**160K
LBS**

Feed Louisville is working to change this, diverting **160,000 pounds** of food from the landfill in 2022 alone.

FOOD RESCUE PARTNERS

Our **Farm Partners** help us use the freshest ingredients in our meals with donations of excess fresh produce during the growing seasons.

Our network of **Restaurant Partners** supplement our work in the kitchen by providing fresh meals, as well as donating spare ingredients and equipment.

Our partnership with **Dare to Care** gives us access to even more food resources. We pick up fresh produce from their dock daily and have partnerships with retail stores like Target and others through their network. These resources allow us to send out snacks, fresh fruit and treats alongside the hot meals we cook daily.
