

Serving our unhoused community through the guiding principles of mutual aid, harm reduction + housing first.

Feed Louisville

WHAT WE DO

Feed Louisville meets our houseless community's daily basic human needs while working to remove the barriers to housing. We meet people where they are. This is key to building trust and fostering stability. We take care of hunger and other emergency needs first, no questions asked, and then we work to move folks toward permanent housing. Our model is built around three key components: **street outreach**, **food rescue**, and **housing navigation**.

WHO WE ARE

What started as a conversation during the onset of the COVID-19 pandemic has transformed into a full-service, mutual aid organization. Founded by Chef Rhona Kamar and Donny Greene, a seasoned outreach worker, Feed Louisville has grown into a network of chefs, restaurants, farmers, organizations, social workers, and countless volunteers who work together to stop the houseless humanitarian crisis happening in our city.

OUTREACH

Focusing on harm reduction and building trust is at the heart of street outreach

- **Deliver** water & 800 hot, fresh, nutritious meals created by our team of chefs daily to our houseless neighbors
- **Provide** critical outdoor survival supplies like tents, sleeping bags, sternos & clothing
- **Distribute** supplies & provide medical care focused on saving lives & preventing the spread of disease

FEED

The intersection of hunger and food waste is at the center of our kitchen

- **Ease** hunger in our community with a team of professional chefs
- **Save** thousands of pounds of perfectly viable food from the landfill monthly & turn it into meals for our houseless community
- **Partner** with local farmers, restaurants and Dare to Care who are all committed to supporting our work with donations

HOUSE

Care coordinators work rests on the Housing First model - it's is a basic human right

- **Stabilize** people indoors through hotel stays to assess their needs and create a plan of action
- **Address** the physical, mental & emotional issues that come with the experience of being unhoused
- **Facilitate** the process of finding housing from obtaining necessary documentation to assisting with move-in & everything in between
